SUMMARY & SKILLS

- **Summary:** CSSE student at UW Bothell with a background in IT infrastructure. Focused on developing software engineering skills through academic work and personal projects.
- **Technical Skills:**
 - **Languages:** Java, C, C++, ARM Assembly, Python
 - **Tools & Technologies:** Git, Linux, Docker, PostgreSQL
 - **Concepts:** Data Structures, Algorithms, OOP
- **Additional Skills:** Strong communication, Problem solving, Time management

PROJECTS

Full-Stack Web Application (In Progress) Apr. 2026 – Aug. 2026

- Developing a wellness tracking application using React, FastAPI, and PostgreSQL
- Implementing user authentication, check-ins, and personalized recommendations
- Designing relational database schema and RESTful APIs

Tic-Tac-Toe Project Sept. 2025 – Dec. 2025

- Built a networked game of tic-tac-toe, that supports 2 players, using C++ with client-server architecture
- Developed custom networking logic and API from scratch
- Used Raylib for rendering and user interaction

Autonomous Maze Solver Sept. 2025 – Dec. 2025

- Developed embedded system using Arduino with sensors and motor control
- Calibrated ultrasonic sensors for real-time obstacle detection

EDUCATION

University of Washington - Bothell Jan. 2025 – Aug. 2026
Bachelor of Science, Computer Science & Software Engineering Bothell, WA

Edmonds College Dec. 2020
Associate of Science, Computer Science Edmonds, WA

WORK EXPERIENCE

RMS Corp. Jul. 2024 – Dec 2024
IMACD Tech. Everett, WA

- Deployed and configured hardware systems for enterprise users
- Managed asset tracking and system lifecycle processes

University Mechanical Contractors, Inc. Feb. 2021 – Oct. 2023
Network Administrator Mukilteo, WA

- Upgraded, repaired, managed, and maintained the company's network infrastructure.
- Diagnosed and resolved complex network issues across distributed systems, ensuring minimal downtime.

University Mechanical Contractors, Inc. Jul. 2021 – Feb. 2023
IT Help Desk Technician Mukilteo, WA

- Monitored the ticket queue via the KACE ticketing system and assigned help desk tickets as needed.
- Provided end-user support both remotely and in person while emphasizing exemplary customer service.
